

## WHAT IS TRANSITIONAL LIVING?

The goal of transitional living is to provide residents with a safe and supportive environment in which to practice sobriety. Houses, like Winterberry, are designed for those early in recovery who require continued structure in order to establish themselves as independent, self-sufficient adults.

Living with others who are also focused on recovery can help you beat the odds of relapse. The coping skills developed will build a firm foundation as you develop life goals. You can also play a role in helping others new to recovery establish a solid foundation and achieve success.
